

**CHIGNECTO-CENTRAL
REGIONAL SCHOOL BOARD**

POLICY #ES-G-01

COMMUNITY EDUCATION AND PARTNERSHIPS

[BOARD MINUTE #07-97, Page 3]

Consistent with its guiding principles, the Chignecto-Central Regional School Board believes that:

- education is a life-long process;
- the quality of community life is directly related to community education;
- excellence in education requires an active partnership involving home, school and community; and,
- school-community partnerships enhance learning opportunities for students and community support for public education.

Accordingly, the Board recognizes its leadership role and responsibility to enhance community life for students, their families and other community members through:

- the promotion and provision of comprehensive community education programs and services; and,
- the promotion and support of mutually beneficial partnerships between schools and public/private community organizations.

To this end, the Board expects the Superintendent of Schools (or designate) to prepare, implement and monitor procedures such that community education initiatives and community education partnership activities are consistent with the vision, values and goals of the Board and the procedures outlined in the **Chignecto-Central Regional School Board Community Education and Partnerships Manual**.
